

## Perfect Player Setup

### HOW TO INSTALL AND SET UP PERFECT PLAYER ON ANDROID PHONE , ANDROID BOX AND ANDROID TV V2, Amazon Fire TV/Stick

Install Perfect Player from the Amazon store, Playstore or from here

<http://niklabs.com/downloads/>

Open Perfect Player Settings Menu (cog icon)

Select General

Select Playlist 1

Enter this url

[http://skmedia.co:4545/get.php?username=xxxx&password=xxxx&type=m3u\\_plus&output=mpegts](http://skmedia.co:4545/get.php?username=xxxx&password=xxxx&type=m3u_plus&output=mpegts)

Delete the xxxx after username= in the url at the top and enter your username ( CHECK FOR TYPOS )

Delete the xxxx after password= in the url and enter your password ( CHECK FOR TYPOS )

Give the playlist a name

Select OK

Select EPG 1

Enter this url

<http://skmedia.co:4545/xmltv.php?username=xxxx&password=xxxx>

Delete the xxxx after username= in the url at the top and enter your username ( CHECK FOR TYPOS )

Delete the xxxx after password= in the url and enter your password ( CHECK FOR TYPOS )

You can shorten your urls by copy and pasteing them in here.

<https://bitly.com>

Change download if no data on current date to Download once a day (drop down menu click on little triangle)

Select OK

Press Back Twice

Press the 3 line button on remote/c on keyboard/touch screen touch little square icon top left

Change Epg Show Epg to Epg Hide Epg

If all steps have been done correctly and there are no typos you should have a Channel List and EPG

If it doesn't load a Channel List or EPG the corresponding url has a typo you have done it wrong
